LARCENCY AND THE LEAGUES.

If we wanted evidence other than that furnished by the history of France, Spain, and Mexico, of the iniquity of secret political societies, we have it in the history of the South and the present condition of each and all of the Southern States, and especially of North Carolina, whether we look at her Executive, Legislative or Judicial condition.

We have heretofore noticed the insecurity of all personal property in Orange, the larcenies, arsons, and rapes committed by one secret society, and the retaliation by whipping and hanging, on the part of another. We have often expressed our sorrow and condemnation of both. When Judge Gilliam rode our circuit last, he sentenced eleven Leaguesmen to the whipping post for larceny. The Leagues, by their influence in the Legislature, procured the abolition of whipping for Larceny. It is now made a penitentiary offence, but we have no penitentiary; so, under the League, the punishment for Larceny is confinement in a good house and plenty to eat at public expense.

The League has enjoyed this salutary change in the law; our comfortable Jail houses have been filled with them all over the State.

On the eve of the election last summer, Major Smith made a common jail delivery in several counties, by going bail for League men there confined. Last week, Judge Tourgee, at Orange, surpassed Major Smith in philanthrophy to the negro.—The storehouse of Mr. James Parks, of Hillsboro', was broken open, and a trunk of boots and shoes, worth some two hundred dollars taken therefrom. About six weeks thereafter, Dennis Hanes sold a pair of boots to Mr. Upchurch, a merchant of this city, for five dollars. These boots were made by Mr. Parks, and had the name of Read on them, the name of the gentleman for whom they were made. At the last Court Dennis Hanes was arraigned for stealing the boots; Parks identified the boots, and their being stolen from his store. Mr. Upchurch proved his getting them from Hanes.

Hanes said not a word as to where he got them. The Jury, against the charge of the Judge, convicted Hanes. The Judge, with apparent excitement, set the verdict aside, declaring there was not a particle of evidence upon which to convict!

Last week, Hanes was again upon his trial for stealing the boots, Major York was retained to prosecute. The same evidence was offered to the jury, Hanes was as silent as the Governor is about the frauds; Wash Day, a respectable colored man, was introduced to show that Hanes had no vocation or calling to make a living. The Judge, as in the former trial, charged favorably for Hanes; in fact, he went it strong for acquittal. The jury did not go with him; Hanes was again convicted, and again the Judge set the verdict aside.—When the Solicitor prayed sentenced on the twice convicted Hanes, his attorney moved to set aside the verdict. Major York by his speech pleased his client, and every hearer, except Hanes and Tourgee, and the League.

Major York, when the Solicitor prayed sentence, by way of calling for adequate punishment, proposed to show that Hanes had the character of a common rogue, and had no calling which he could make an honest living by. The Judge declined to hear the evidence, and the matter ended by granting another new trial.

Where is there a parallel for such Judicial ruling? Why have a jury to convict? Why not let the Judge act as Juror? Is it longer to be wondered at, that, for larceny in Orange, the people scourge. These are the facts in the case; we dare not misrepresent them, if we do, Tourgee, under the late act of assembly, (said to be passed for our benefit,) can fine and imprison us; he being both Judge and witness against us. Where is the man, except Dennis Hanes, who will approve of such judicial ruling? Oh for the Mayor of Milton!

WASHINGTON, Nov. 5.—The committee having in charge the erection of the equestrian statue of Gen. Grant have obtained a sufficient amount of subscription to warrant them in proceeding with the work, and today directed the sculptor, J. A. Bailey, of Philadelphia, to proceed with the statue. The statue will be of bronze, cast from cannon captured by Gen. Grant. It is to be of colossal size; the pedestal is to be a single block of granite. It will be erected on the terrace on the south front of the Treasury building. The full height of the statue will be about twenty-five feet, exclusive of the pedestal. The total cost, including pedestal, will be about $55,000. Mr. Mallett, the supervising architect of the Treasury Department, will have the south front of the treasury repaired and ready for the statue by the first of January next.

A recently appointed postmistress at a post office on the plains sends her first quarterly report to the Department with the following note: 'For weeks past I have slept with a six-shooter by my bedside and a carving knife under my pillow, expecting at break o'day the Indians would come for my scalp, but all of this has not been half so harrassing to my mind as the making out of one quarterly report."

STILL AT THEIR WORK.

We were lead to believe, last week, that the quartering of negro militia at Abram Scott's in White Oak District, in this county, was done by an ignorant Magistrate without Governor Holden's knowledge or sanction, and that he had already, or would immediately, give orders and have them dispersed; but it seems our informant was mislead, for, instead of this irresponsible gang being recalled, they are there yet, and are daily increasing in numbers by new recruits.

We mentioned last week, some of their acts of lawlessness and violence, of which, we know, Governor Holden was duly notified by reliable persons from the neighborhood; such as their raid upon the dwelling of Mrs. Branch, a respectable widow lady, taking her daughter violently from her sleeping room and leading her out in her night clothes among the rabble that had forced their way into the house; their firing a number of bullets through the door of a peaceable and quiet citizen while his family were in the house; their visiting the premises of Mr. McNeil in his absence and frightening the females with threats of death, and other unlawful and outrageous acts.

We were informed yesterday by a respectable citizen of the county, that on Thursday night last, six of this crowd of negro militia went to the house of a widow lady, in the vicinity of their camp, forcibly dragged her daughter, a beautiful and respectable young girl, from the house to the woods, and there violated her person in the most brutal and shocking manner. The name of the family is in our possession, but we forbear to give it publicity, out of regard to them.

These things, if they are as they have been represented to us, cannot continue; if Gov. Holden does not stop them and punish the perpetrators, he will be responsible before God and man for the results. What we stated in regard to the lawless actions of this rabble, has been fully and publicly corroborated by gentlemen of undoubted veracity from that section of the county, both by Democrats and Republicans; and as we have stated above, the Governor was informed of the facts, last week, but simply referred the gentleman who told him of them, to his Adjutant General. We were told by a gentleman, on Friday last, that the Governor declared this militia was sent there by a Magistrate without his order; but he cannot plead ignorance of the fact longer; and we can furnish him the names of respectable parties to substantiate the fact of their crimes and outrages, if he wants them. We learn there were some persons out there last week investigating the affair, but nothing so far has come of it, and if the statements of the depredators alone are taken, we don't suppose anything ever will.

These troops are simply carrying out the instructions of the "Legislative Address," and the *North Carolina Standard*—the one advised the negroes not to go hungry when there was corn in the fields and hogs running at large; the other, in the article "Work," told them how to work; pointed out the wives, sisters and daughters of Southern homes as legitimate game for their hellish passions. They have learned these lessons well, and now the storm is raging, the agitators can't control it, even if they had a disposition to do so. Well may the *Standard* exclaim—well may we all exclaim—"How long! O, Lord, how long!"

A CHRISTIAN WOMAN TORTURED BY CHINESE.—A Catholic paper in England gives the following account of an incident which it says recently occurred at Canton:

A native Christian woman, much respected by the Christians, and even by the pagans who were acquainted with her, has devoted herself for twenty years to the rescuing and baptizing infants abandoned by their parents. At the beginning of July she was arrested on the charge of practicing sorcery upon young children, and of taking out their eyes, the marrow of their bones, and even their souls, with a view to the preparation of magical remedies. She was several times savagely beaten on the face with leathern straps to induce her to confess her guilt. In the midst of her tortures, however, she maintained the greatest courage and constancy in confessing the faith. She was condemned to death, and it was feared the sentence would be immediately executed. Upon this M. Giraudin, resident missionary, succeeded in obtaining entrance to the prison, heard her confession, and administered to her the holy Viaticum, while the bishop, Mgr. Guillemin, left no means untried to obtain a respite. This was granted, and the Viceroy spread a report that the cause would be carried by appeal to Pekin. But in the meantime the populace were excited to fresh violence, and the mandarins subjected the accused to fresh examinations, forcing her to remain for many hours kneeling upon iron chains. All of a sudden, however, the victim of persecution was set at liberty, and received with public demonstrations of joy by the Christian part of the population.

A LADY SUPPOSED TO HAVE BEEN MURDERED BY HER LOVER.—The Marion (Va.) *Herald* says:

"On Wednesday evening of last week the dead body of Miss Baylor, a young lady residing near Sharon, in Bland county, was found in the woods a short distance from her house. She went out on the Monday previous to visit a neighbor, and nothing was thought of her absence until Tuesday, when a search was instituted, and she was found at the time above stated with her throat cut from ear to ear. There was indications that she had made a severe struggle with her murderer for her life, the ground about the spot where her body was found bearing many foot-prints and traces of a struggle. A man named Jackson, who had been discarded by Miss Baylor, is believed to have committed the horrible deed. He has been missing since her body was found, and though the people have turned out in large numbers in pursuit of him, he had not been captured at last accounts."

The McCoole, Allen difficulty is so far settled that the fight will come off. Allen was held in the sum of $2,000 to keep the peace by a magistrate of Delhi township.

W. H. Aspinwall, August Belmont, Marshall O. Roberts and Samuel Blodgett, Esqs., of New York, will permit the public to visit their private picture galleries this winter.

SHOE MANUFACTURE.

Essay read before the N. C. Agricultural Society, during the late Fair, by James A. Leach, Esq., of Thomasville.

Almost every great human interest has its festivals, its time when labor pauses, and joy reigns supreme; its days when the pangs of toil are forgotten in the rich rewards that, sooner or later, crown the producer. A State Fair is labor's festival, a central point to which the best, and the beautiful come up from the whole country, to be woven into a beautiful crown of rejoicing for the spirit of toil. Every pursuit is, or ought to be represented, the skilful product of every wise head and cunning hand ought here to have a record, and every community ought to win some prize, not only as a reward for the past, but as an encouragement for the future. At least one of the omens of good that mark the present Fair is, that shoes have found not only a warm reception on the tables of exhibition, but have been invited to entertain if not instruct an audience of the people; the only diminution of their triumph is the incapacity of the advocate who represents them.

The shoe business demands the earnest attention of all North Carolina; it is not a choice, but a real necessity; it is the useful and the ornamental finely united, and forced by nature's law upon all civilized people. The foot must be dressed, or nothing can prevent man from being a savage. When the dress of the foot is defective no costly fabricks can complete a beautiful costume; a chest in the article of shoes, is ruinous to fortune, and a want of comfort in them exposes a man to all temptations from the world, the flesh &c. Nearly all other articles may be stridged, but all must and will have shoes. Hence their production is of first importance to any State. To form some idea of the financial importance of this business, we must have some statistics of its aggregate extent.

For many years past, not including the time of the war, we have been purchasing about 500,000 pairs of shoes annually from Northern houses. These shoes have cost the State something over $1,000,000; of this $1,000,000, about $400,000 went as per cent to Northern Merchants, cost of transportation, per cent to leather houses &c., so that we have really paid about $1,000,000 for $600,000 intrinsic value of shoes, to say nothing of the per cent paid to our merchants. But the true estimate is really worse than this statement, for this supposes that every shoe was honestly what it pretended to be; whereas it is known as widely as yankee cunning itself, that of all the outrageous cheats ever perpetrated upon the human race, the very worst has been in shoes. Spriggs have supplied the place of honest sewing, paste has given firmness and apparent body to the most inferior leather, and pasteboard has been sold for sole leather. These and other considerations are sufficient to convince all thinking people that Home Manufacture is not only the pecuniary interest of the whole state, but an absolute duty incumbent upon us as sensible, civilized people. We lay down the following principles of political economy, approved not only by general reasoning and common sense; but by the enlightened experience of all the great manufacturing centers in Europe and America.

1. Other things being equal, it is always best to manufacture in the district of consumption. It is financially, as well as socially, best for all goods to be made in the midst of the people who are to use them. Thereby is saved to the consumer all cost of transportation, all per cent for insurance, all destruction of property by losses in shipping, all profits to the different parties who may own the material or goods, and the interest on the value that must accrue between the time of producing the material and the consumption of the goods. All these items put together amount in the average to one half the cost of the manufactured article. In all cases where the article could just as well be manufactured in the district of consumption, this is an inexcusable, ruinous waist to the consumer. Statistics and observation prove conclusively, that a people who use manufactured goods largely, and employ themselves exclusively in producing raw material will be poor in spite of every advantage of soil, climate and material facilities of transportation.

2. The second principle I state is, that producers of raw materials never can compete with those who manufacture, in wealth and high civilization. Every species of manufacture, requires labor more or less educated, and educated labor always has and forever will pay better than that which is uneducated. The trade or profession forces its occupants to an extent of information, range of thought, and general activity of mind and body, that not only earn large amounts of money directly, but that indirectly multiply their good results in all directions by invigorating the whole community. There are stimulus and quickening powers in the mechanic arts that are necessary to the full development and healthy tone of all people. If we would ever rise up to our full stature, feel our capabilities and give scope to our genius, we must manufacture as well as produce.

3. I state as a third principle that every State ought to afford facilities for a full, wide development of all its talent; not simply the talent that shines at the Bar, in Pulpit or in Legislative Halls, but all that immense mental force that adorns and enriches the homes of the land, makes desert places bloom with all that is useful, and adds to the solid enjoyment of the whole population by a decrease of muscular toil and an increase of every material and mental resource. This development of talent can only be effected by extending the lines of industry as widely as the wants of the whole community. Every State is not only a complete self governing political existence, but ought to be a perpetual market of all indigenous productions, and self-producing in all articles upon which mind and acquired skill confer their principal value. Without these conditions no state can prosper. Not only will a heavy balance of trade absorb the few resources she cultivates; but a large amount of her best capital and enterprise will either be directed to unoccupied pursuits, or left wholly without employment. Every State produces men naturally adapted to all necessary pursuits, and he who works contrary to his genius can never greatly benefit either himself or the public.

If these principles are true, shoe manufacture is an imperative necessity to North Carolina. The business is of immense financial magnitude, the article a prime necessity, and the drain upon our resources has no balancing compensation. That we can successfully manufacture shoes has been fully proved by experiment. In the year 1857, Messrs. C. M. & G. Lines commenced manufacturing shoes in Thomasville, for the wholesale trade. Soon after that time Messrs. Shelly & Son commenced making fine cloth gaiters, and from that time the business has been steadily increasing. There are now, in Thomasville, four wholesale establishments, Messrs. C. M. & G. Lines; Shelley Bros. & Co., Jones Bros. and James A. Leach & Co. During the last year these houses made and sold about 85,000 pairs of shoes. Two of these houses commenced work in the last twelve months, they never have been able to meet the demand to the full extent. They can readily sell all they can make, and the demand is extending not only over this State but even to other Southern States. E. S. Vogler & Co., of Salem, are manufacturing largely both pegged and sewed work, and find ready sale for all they can furnish. These houses have succeeded not by artificial expedients and tricks of trade, but by fair, honest work, and a natural suitability of the work to the wants of the people. The shoe business in this State has had no combination of capital to foster its struggling infancy, and no Union of influential merchants to protect its growth, but has established itself against the most gigantic competition, and in the midst of all kinds of disadvantages. We had to make our people believe that a shoe could be made in North Carolina with a leather sole as well as in Lynn with a pap sole. North Carolina has every facility for tanning, oak bark in abundance produces a very large amount of hides, and might furnish leather for nearly all kinds of shoes of the best quality, and yet we can find very little home tanned leather proper for our work. The leather is badly tanned, dressed in a very imperfect manner, and never reduced to a uniform thickness. With such stock as this it is impossible for any factory to make good saleable work; the same side will never furnish two pair alike. And in addition to this difficulty there is so much waste in cutting up home tanned leather that no man can use it and compete with those who use the Northern finish. But for all this there is an easy and natural remedy.

So soon as our shoes are chiefly manufactured at home, our tanners will find a ready market for all they can produce; they will no longer do as they now do, which is to ship their rough tanned, undressed leather to northern houses, but finding ready sale for any amount of a good article, they will be able to procure machinery and good workmen, and finish up all the grades of leather required in the largest factories.—As affairs now are, the shoe factories are compelled to buy their stock north, not only to procure style and finish for their work, but to make a good serviceable shoe for their customers. It is vain for unskillful workmen and noisy demagogues to harp upon State pride or any other fancy sentiment; trade and manufacture will run in their natural channels, and any man who can produce the best article at the lowest price will sooner or later find sale for all his work. In producing shoes we have labored under all the difficulties natural to any business in a new locality, our stock had to be brought from a distance; our workmen had to learn their trade; our business was too small to admit a full and profitable division of labor. We had to overcome the idea, that anything made in the north was better than home production, and had to contend against shoddy shoes that by aid of paste and blacking are sold by our merchants by thousands. We had to use the very best stock made in America. Work had to be done equal to any that ever came from the north. Then have to sell some styles of shoes at cost, and never more than ten cents could be made to the manufacturer on a pair. But against all this we have moved steadily on, and to-day a Thomasville shoe has a better reputation in North Carolina than any that ever came from Lynn or Boston. But as yet the business is in its infancy; our eyes have just been opened to see what we can do; the chains of commercial and manufacturing slavery have just been cut from our arms, and we begin to feel that we are men. With a proper amount of capital and good business talent success is as certain in shoe manufacture, as it is in any pursuit known among men. Suppose we had in our State large well organized manufactories, that could make one half even of all the shoes bought in North Carolina. Not only would a handsome per cent reward the owners, but life and wealth would flow out from it to the whole country. Nothing is to be dreaded from Northern capital and cunning; these piles of miserable cheats by country called shoes would cease to come South altogether, and those North Carolina shoes would warm and ornament the feet of one of the truest people that ever lived. With a cash capital we can go into the Northern markets and buy stock as cheap as any New England house can, and can certainly compete with any body in the original cost of material; not only that, but in a short time tanneries of the first order would spring up and furnish the leather at our own doors, leather that would be free from those defects now more or less abundant in very near all that goes into the general trade. This business in turn would stimulate stock raising and agriculture, and soon all over the State Durhams, Devons, Short Horn and Jersey's would be roaming over immense clover fields, furnishing milk, butter and cheese for all the people, and an unbounded supply of beef of the first quality. These things would afford employment and enterprise for all grades and classes of our people; beggars would no longer be seen upon the highways, shoeless, hatless orphans will not be found in the streets, and the widow will no longer shed useless tears over her hungry babes. There are key-stones in the business of life as well as in the arches of architecture, and one of these is the shoe business. It has done more for the real wealth and prosperity of Massachusetts than all the commerce that ever flowed into her harbors; and it would do more for North Carolina than all the trade and travel of her inland roads and Seabord cities. Large manufacturing would not only stimulate nearly all primary pursuits, but the very extent of the enterprise would justify a complete division of labor. There are in this business at least eighteen distinct operations or lines of work, and it is well-known that elegant as well as profitable execution, requires that no workman should do too many kinds of work. The greatest skill can only be acquired by continually training mind and muscle on a distinct operation. And as the different operations require very different acquirements in ability and skill, operatives are selected that in experience and wages correspond to the work. A large amount can be done by very small boys. We have a large number of small boys in Thomasville that peg shoes so rapidly and perfectly that I would not like to here state the number each one could peg in a day, for fear some one might think I was mistaken. The only way of success is to have a perfect system of labor. Learn workmen to do a very large amount of work in a very short time. The business has shown that four times as much work can be done in a day by Southern men and boys, than was thought possible for them to do.—[But they never move, as most of our Southern men do when they go to work.] A large shoe business would give employment to almost all ages and conditions. Would add immensely to the self supporting capacity of all, and thereby decrease the immence force of grim want that now urges thousands to all forms of sin and crime, give profitable employment to hundreds of our people. This influence would spread like a leaven of light and life through every lurking place of idleness and crime. Taxes would come gracefully and gradually down to a living per cent and contributions to the poor would no longer be a grievous burden instead of a christian pleasure. We claim for the shoe business of Thomasville, that by large sales even at a very small per cent we can make a living profit, and be able to compete with the general trade of the world, and at the same time furnish the very best article to the consumer. Take the question in all its aspects, and the shoe business is one of the most promising. But it is utterly useless for any man to commence operations with a small capital, he must have a sufficiency to organize a complete division of labor, and to accumulate full stocks for the heavy trade of spring and fall, he must have a sufficiency to enable him to go into the markets at the most favorable time either for purchase or sale. It is now in the power of our people, to build up her manufactories. Why then should not North Carolina make her own shoes? Why enrich other States with what she can do for herself equally as cheap and far more honestly. May the time soon come when a North Carolina shoe will be famous in all markets, and when her manufacturing skill shall pay all her debts, and make all her people prosperous and happy.

"TAR HEEL" FOREVER.

25 TWO HORSE "TAR HEEL" PLOWS. I only ask a trial for them, if satisfaction is not given I will return the money. It was much admired by visitors at our State Fair and also at the Henderson Fair. First premiums were awarded to it at both Fairs, it being the best two Horse Plow on exhibition.

UPWARD AND ONWARD!!

WHY IS IT BEST TO INSURE IN THE

BROOKLYN LIFE?

BECAUSE,

AMONG OTHER REASONS, IT IS THE ONLY COMPANY IN THE UNITED STATES WHICH PRESENTS THE GREAT FEATURE OF GUARANTEEING DEFINITE

CASH SURRENDER VALUES,

IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.

ALL POLICIES

Are non-forfeitable after two full Annual Premiums have been paid.

The policy-holders of this Company may travel or reside where they choose—anywhere on the Globe.

The BROOKLYN LIFE has paid, and now pays to its policy-holders, LARGER DIVIDENDS than ever before paid by a Life Insurance Company.

DIVIDENDS ARE PAID IN CASH,

or applied to the permanent increase of the policy, or left with the Company to accumulate at interest, in either way, at the option of the policy-holder.

$200 REWARD.

I WILL PAY THIS REWARD FOR THE APprehension of a mulatto man, about 20 or 25 years old, who calls himself J. Buckman, (probably Blackwell) and says he is from Orange county, and was on his way to Raleigh to join Gov. Holden's army; to others he stated he was from Greensboro' and was going to Goldsboro' where he has a brother. He broke into and robbed my store at Brassfields, on Tuesday night, last and sold a number of the stolen articles along the way towards Raleigh, by which he can be identified. I will give the above reward, for the apprehension and delivery to an officer of the law, so that he may be properly dealt with.

NEW ADS.—See announcement of building lot for sale on Fayetteville street.

And A. D. Royster & Bro., has another supply of that fine Durham Smoking Tobacco, *and cigars.*

DID YOU SEE 'EM?—Those black ponies with those riders on them—how beautifully they *galloped* through Fayetteville street, yesterday afternoon? Those horses are good on a gallop.

A MODEL JUSTICE.—At a recent meeting of the Board of "Brogden" Township, Wayne County, 'fur de purpus of transactin de bizness ob de County 'fur dat township" as they expressed it in the Record they passed two Road orders, and then adjourned, having performed a hard day's work.

One of the Board, being a J. P., was then called upon to "help set on a case," the case being the trial of two colored females for an alleged affray. After paying close attention to the "ebidence," which was conclusive as to the guilt of the parties, the wise Judge declared that, "bein as how he was onaquainted wid de procedunces in sich cases, he was onable to gub judgment," whereupon, a bystander suggested that the vote of the crowd be taken, to which his worship consented.

The justice then put the question—"It has been moved and seconded, dat dis case be dismissed, all ev you who is in favor ob dat motion will let it be known by saying, "Aye." The vote was unanimous in the affirmative, and the case dismissed, and the last our informant saw of the parties, they were going towards the doggery, "to git de money changed to pay de coss."

SUNDAY SCHOOL MASS MEETING.—On Sabbath afternoon, last, the Presbyterian and Methodist Sabbath Schools of the city, visited the Baptist Sabbath School at the Baptist Church, and a very pleasant hour was passed in singing, by all the schools, and short addresses by those connected with them.

The exercises were conducted by W. J. Palmer, Esq., Superintendent of the Baptist Sunday School.

The meeting was opened with prayer by Rev. R. T. Hudson, of the M. E. Church.

Short addresses were delivered by Rev. W. E. Pell, Messrs A. M McPheeters, S. L. Riddle, R. W. Best and Jno. R. Harrison.

Before, between and after these addresses all the schools joined in singing some of those beautiful Sunday School songs that always charm the ear and gladden the heart of those who hear them.

The exercises were closed with the benediction by Rev. J. K. Howell.

The next union will be held at the Presbyterian church. "Behold, how good and how pleasant."

"OLD VIRGINNY NEVER TIRE."—We learn from a reliable source that the State Fair in Richmond last week was a splendid success. During the four days there was a vast assemblage. On Tuesday some 8 or 10 thousand. On Wednesday 20,000 And Thursday at least 25,000. While on Friday the last day, there was a crowd of at least 10,000. The weather was all that could be desired all the time. The display of Horses, Cattle, Hogs, and Sheep was very fine. The best breeds of Virginia Horses were exhibited.

All other things usually exhibited on such occasions were fully represented. But the greatest exhibition of all, was the appearance and good conduct of the Virginians themselves, who were so orderly, so dignified, and so cheerful under all the recent disasters of a desolating war within her borders. It is said that such a magnificent array of fine looking Women and Men, has seldom been seen in the "Old Dominion."

FIRE.—An alarm of fire was given on yesterday (Monday) morning, about 9 o'clock, which was caused by the roof of the M. E. Church parochial school taking fire from the stove pipe. It was soon extinguished, without very material damage to the building. The Fire Companies were promptly on hand, but their services, fortunately, were not called into requisition.

People ought to be very careful in regard to the running of stove pipes through the wood work of buildings.

TURNED UP IN CHARLOTTE.—We see from the Charlotte papers that there was an exhibition of music and magic in that city on Thursday night last, for the benefit of the Charlotte Cornet Band. The band played the music, we presume, and a Mr. Hensley, "gin a treat," of magical illusions. The *Times* regrets there was but a small audience. Mr. Hensley, or *Hawsley* ought to have had the magic drum, pistol and other "fixtures" that were on exhibition here on Saturday; they drew a considerable crowd, and Sheriff Lee realized fifty dollars by the exhibition; every thing "went off well."

Colds and Coughs.—Sudden changes of climate are sources of *Pulmonary and Bronchial affections.* Experience having proved that simple remedies act speedily when taken in the early stage of disease, take at once *"Brown's Bronchial Troches,"* let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be warded off.

DUPONT, timber inspector at Wilmington, got caught stealing and the Governor has taken away his commission for it.

THAT DUNN—ANOTHER CARPET-BAGGER CAUGHT.—Estes, the gay and festive L. G., the man who had such mighty influence over our Governor as to promise his pardon to any one in advance who would shoot Jon Turner in the back, has got himself into difficulty in Wilmington, as we learn from the *Journal*. The Grand Jury of the U. S. District Court found two bills against him—one for embezzling, (a nickname for stealing) $15,000; the other, for making false returns, as collector, to the Commissioner of Internal Revenue. (Estes was Collector of customs at the port of Wilmington.)

The case was transmitted for trial to the U. S. Circuit Court, which meets in Raleigh, on the 29th inst., for which a capias was directed to be issued.

Mrs. L. G. Estes, J. C. Abbott, E. R. Brink and W. H. French are on his bond as Collector.

Poor Estes! He used to splurge about Raleigh in quite a different character from that in which he will appear on the 29th November. Beware of carpet baggers!

THE WEATHER.—We beg the pardon of that Local over the way, down the street, for meddling with his subject, the weather, but it is so cold we must speak of it. Sunday we had truant snow-flakes flying through the air, which seemed to impart a portion of their frigidity to, it so that Sol has not yet been able to dissipate it. We predict a hard winter and much suffering.

"When the old robin red-breast shall visit your cott
When the icicles hang at your door;
And your bowl smokes with something reviving and hot,
Then you ought to remember the poor."

THEATRE LAST NIGHT.—Owing to imperfection in the announcement, the audience at Tucker Hall, last evening, at the first representation of Ford's talented Theatrical Corps, though select, was not so large as the merits of the Company deserved. Full houses will doubtless greet them during the remainder of their stay.

The acting, last evening, was spirited and developed some first-rate talent. We have neither space nor time, this morning, for very particular mention. It may not be generally known that a gifted and beautiful North Carolina Lady, Miss Alexander, formerly of Lincoln county, who has adopted the stage as her profession and who has brought to her art the resources of a highly cultivated mind, is with this Company. Her presence last night, was enthusiastically greeted, as it should have been, and her impersonations were natural and admirable. Ryan, as a comedian, is inimitable. The Company, generally, sustained themselves well.

An attractive programme is presented for this evening.

A meeting of colored people was held in the Court House, last night, for the purpose, we understand, of appointing delegates to the National Labor Convention to be held in Washington City on the first Monday in December. We did not learn the result of the meeting, but we presume some popular speeches were made, by the frequent applause that was given.

FIRE IN NEWBERN.—A house caught on fire in Newbern, on Saturday last, as we learn from the *Journal of Commerce*, but was extinguished by the fire companies, after burning the roof and upper story.

WASHINGTON.

WASHINGTON, Nov. 8.—In the Supreme Court, in Woodruff *et. al versus* Parham, from the Supreme Court of Alabama, the opinion of the Court below was affirmed. The principle enunciated is, that the clause of the Federal Constitution prescribing the States from laying imposts on imports and exports, applies only to foreign commerce, and does not exempt sales of goods and merchandise imported from other States of the Union from State taxation. Justice Nelson dissented, asserting that the contrary was maintained by Chief Justices, Taney, Marshall and Story.

Gov. Bullock has ordered a special train for invited guests It will leave Lynchburg on Saturday evening 13th inst. Gen. Capron, Prof. Henry, Asst. P. M. Gen. Earl, Senators Pomeroy, Cameron and other prominent gentlemen and officials, will certainly attend.

LARCENCY AND THE LEAGUES.

If we wanted evidence other than that furnished by the history of France, Spain, and Mexico, of the iniquity of secret political societies, we have it in the history of the South and the present condition of each and all of the Southern States, and especially of North Carolina, whether we look at her Executive, Legislative or Judicial condition.

We have heretofore noticed the insecurity of all personal property in Orange, the larcenies, arsons, and rapes committed by one secret society, and the retaliation by whipping and hanging, on the part of another. We have often expressed our sorrow and condemnation of both. When Judge Gilliam rode our circuit last, he sentenced eleven Leaguesmen to the whipping post for larceny. The Leagues, by their influence in the Legislature, procured the abolition of whipping for Larceny. It is now made a penitentiary offence, but we have no penitentiary; so, under the League, the punishment for Larceny is confinement in a good house and plenty to eat at public expense.

The League has enjoyed this salutary change in the law; our comfortable Jail houses have been filled with them all over the State.

On the eve of the election last summer, Major Smith made a common jail delivery in several counties, by going bail for League men there confined. Last week, Judge Tourgee, at Orange, surpassed Major Smith in philanthrophy to the negro.—The storehouse of Mr. James Parks, of Hillsboro', was broken open, and a trunk of boots and shoes, worth some two hundred dollars taken therefrom. About six weeks thereafter, Dennis Hanes sold a pair of boots to Mr. Upchurch, a merchant of this city, for five dollars. These boots were made by Mr. Parks, and had the name of Read on them, the name of the gentleman for whom they were made. At the last Court Dennis Hanes was arraigned for stealing the boots; Parks identified the boots, and their being stolen from his store. Mr. Upchurch proved his getting them from Hanes.

Hanes said not a word as to where he got them. The Jury, against the charge of the Judge, convicted Hanes. The Judge, with apparent excitement, set the verdict aside, declaring there was not a particle of evidence upon which to convict!

Last week, Hanes was again upon his trial for stealing the boots, Major York was retained to prosecute. The same evidence was offered to the jury, Hanes was as silent as the Governor is about the frauds; Wash Day, a respectable colored man, was introduced to show that Hanes had no vocation or calling to make a living. The Judge, as in the former trial, charged favorably for Hanes; in fact, he went it strong for acquittal. The jury did not go with him; Hanes was again convicted, and again the Judge set the verdict aside.—When the Solicitor prayed sentenced on the twice convicted Hanes, his attorney moved to set aside the verdict. Major York by his speech pleased his client, and every hearer, except Hanes and Tourgee, and the League.

Major York, when the Solicitor prayed sentence, by way of calling for adequate punishment, proposed to show that Hanes had the character of a common rogue, and had no calling which he could make an honest living by. The Judge declined to hear the evidence, and the matter ended by granting another new trial.

Where is there a parallel for such Judicial ruling? Why have a jury to convict? Why not let the Judge act as Juror? Is it longer to be wondered at, that, for larceny in Orange, the people scourge. These are the facts in the case; we dare not misrepresent them, if we do, Tourgee, under the late act of assembly, (said to be passed for our benefit,) can fine and imprison us; he being both Judge and witness against us. Where is the man, except Dennis Hanes, who will approve of such judicial ruling? Oh for the Mayor of Milton!

WASHINGTON, Nov. 5.—The committee having in charge the erection of the equestrian statue of Gen. Grant have obtained a sufficient amount of subscription to warrant them in proceeding with the work, and today directed the sculptor, J. A. Bailey, of Philadelphia, to proceed with the statue. The statue will be of bronze, cast from cannon captured by Gen. Grant. It is to be of colossal size; the pedestal is to be a single block of granite. It will be erected on the terrace on the south front of the Treasury building. The full height of the statue will be about twenty-five feet, exclusive of the pedestal. The total cost, including pedestal, will be about $55,000. Mr. Mallett, the supervising architect of the Treasury Department, will have the south front of the treasury repaired and ready for the statue by the first of January next.

A recently appointed postmistress at a post office on the plains sends her first quarter y report to the Department with the following note: 'For weeks past I have slept with a six-shooter by my bedside and a carving knife under my pillow, expecting at break o' day the Indians would come for my scalp, but all of this has not been half so harrassing to my mind as the making out of one quarter'y report."

STILL AT THEIR WORK.

We were lead to believe, last week, that the quartering of negro militia at Abram Scott's in White Oak District, in this county, was done by an ignorant Magistrate without Governor Holden's knowledge or sanction, and that he had already, or would immediately, give orders and have them dispersed; but it seems our informant was mislead, for, instead of this irresponsible gang being recalled, they are there yet, and are daily increasing in numbers by new recruits.

We mentioned last week, some of their acts of lawlessness and violence, of which, we know, Governor Holden was duly notified by reliable persons from the neighborhood; such as their raid upon the dwelling of Mrs. Branch, a respectable widow lady, taking her daughter violently from her sleeping room and leading her out in her night clothes among the rabble that had forced their way into the house; their firing a number of bullets through the door of a peaceable and quiet citizen while his family were in the house; their visiting the premises of Mr. McNeil in his absence and frightening the females with threats of death, and other unlawful and outrageous acts.

We were informed yesterday by a respectable citizen of the county, that on Thursday night last, six of this crowd of negro militia went to the house of a widow lady, in the vicinity of their camp, forcibly dragged her daughter, a beautiful and respectable young girl, from the house to the woods, and there violated her person in the most brutal and shocking manner. The name of the family is in our possession, but we forbear to give it publicity, out of regard to them.

These things, if they are as they have been represented to us, cannot continue; if Gov. Holden does not stop them and punish the perpetrators, he will be responsible before God and man for the results. What we stated in regard to the lawless actions of this rabble, has been fully and publicly corroborated by gentlemen of undoubted veracity from that section of the county, both by Democrats and Republicans; and as we have stated above, the Governor was informed of the facts, last week, but simply referred the gentleman who told him of them, to his Adjutant General. We were told by a gentleman, on Friday last, that the Governor declared this militia was sent there by a Magistrate without his order; but he cannot plead ignorance of the fact longer; and we can furnish him the names of respectable parties to substantiate the fact of their crimes and outrages, if he wants them. We learn there were some persons out there last week investigating the affair, but nothing so far has come of it, and if the statements of the depredators alone are taken, we don't suppose anything ever will.

These troops are simply carrying out the instructions of the "Legislative Address," and the *North Carolina Standard*—the one advised the negroes not to go hungry when there was corn in the fields and hogs running at large; the other, in the article "Work," told them how to work; pointed out the wives, sisters and daughters of Southern homes as legitimate game for their hellish passions. They have learned these lessons well, and now the storm is raging, the agitators can't control it, even if they had a disposition to do so. Well may the *Standard* exclaim—well may we all exclaim—"How long! O, Lord, how long!"

A CHRISTIAN WOMAN TORTURED BY CHINESE.—A Catholic paper in England gives the following account of an incident which it says recently occurred at Canton:

A native Christian woman, much respected by the Christians, and even by the pagans who were acquainted with her, has devoted herself for twenty years to the rescuing and baptizing infants abandoned by their parents. At the beginning of July she was arrested on the charge of practicing sorcery upon young children, and of taking out their eyes, the marrow of their bones, and even their souls, with a view to the preparation of magical remedies. She was several times savagely beaten on the face with leathern straps to induce her to confess her guilt. In the midst of her tortures, however, she maintained the greatest courage and constancy in confessing the faith. She was condemned to death, and it was feared the sentence would be immediately executed. Upon this M. Giraudin, resident missionary, succeeded in obtaining entrance to the prison, heard her confession, and administered to her the holy Viaticum, while the Bishop, Mgr. Guillemin, left no means untried to obtain a respite. This was granted, and the Viceroy spread a report that the cause would be carried by appeal to Pekin. But in the meantime the populace were excited to fresh violence, and the mandarins subjected the accused to fresh examinations, forcing her to remain for many hours kneeling upon iron chains. All of a sudden, however, the victim of persecution was set at liberty, and received with public demonstrations of joy by the Christian part of the population.

A LADY SUPPOSED TO HAVE BEEN MURDERED BY HER LOVER.—The Marion (Va.) *Herald* says:

"On Wednesday evening of last week the dead body of Miss Baylor, a young lady residing near Sharon, in Bland county, was found in the woods a short distance from her house. She went out on the Monday previous to visit a neighbor, and nothing was thought of her absence until Tuesday, when a search was instituted, and she was found at the time above stated with her throat cut from ear to ear. There was indications that she had made a severe struggle with her murderer for her life, the ground about the spot where her body was found bearing many foot-prints and traces of a struggle. A man named Jackson, who had been discarded by Miss Baylor, is believed to have committed the horrible deed. He has been missing since her body was found, and though the people have turned out in large numbers in pursuit of him, he had not been captured at last accounts."

The McConnis, Allen difficulty is so far settled that the fight will come off. Allen was held in the sum of $2,000 to keep the peace by a magistrate of Delhi township.

W. H. Aspinwall, August Belmont, Marshall O. Roberts and Samuel Blodgett, Esqs., of New York, will permit the public to visit their private picture galleries this winter.

SHOE MANUFACTURE.

Essay read before the N. C. Agricultural Society, during the late Fair, by James A. Leach, Esq., of Thomasville.

Almost every great human interest has its festivals, its time when labor pauses, and joy reigns supreme; its days when the pangs of toil are forgotten in the rich rewards that, sooner or later, crown the producer. A State Fair is labor's festival, a central point to which the best, and the beautiful come up from the whole country, to be woven into a beautiful crown of rejoicing for the spirit of toil. Every pursuit is, or ought to be represented, the skilful product of every wise head and cunning hand ought here to have a record, and every community ought to win some prize, not only as a reward for the past, but as an encouragement for the future. At least one of the omens of good that mark the present Fair is, that ours have found not only a warm reception on the tables of exhibition, but have been invited to entertain if not instruct an audience of the people; the only diminution of their triumph is the incapacity of the advocate who represents them.

The shoe business demands the earnest attention of all North Carolina; it is not a choice, but a real necessity; it is the useful and the ornamental finely united, and forced by nature's law upon all civilized people. The foot must be dressed, or nothing can prevent man from being a savage. When the dress of the foot is defective no costly fabrics can complete a beautiful costume; a cheat in the article of shoes, is ruinous to fortune, and a want of comfort in them exposes a man to all temptations from the world, the flesh &c. Nearly all other articles may be abridged, but all must and will have shoes. Hence their production is of first importance to any State. To form some idea of the financial importance of this business, we must have some statistics of its aggregate extent.

For many years past, not including the time of the war, we have been purchasing about 500,000 pairs of shoes annually from Northern houses. These shoes have cost the State something over $1,000,000; of this $1,000,000, about $400,000 went as per cent to Northern Merchants, cost of transportation, per cent to leather houses &c., so that we have really paid about $1,000,000 for $600,000 intrinsic value of shoes, to say nothing of the per cent paid to our merchants. But the true estimate is really worse than this statement, for this supposes that every shoe was honestly what it pretended to be; whereas it is known as widely as yankee cunning itself, that of all the outrageous cheats ever perpetrated upon the human race, the very worst has been in shoes. Sprigg's have supplied the place of honest sewing, paste has given firmness and apparent body to the most inferior leather, and pasteboard has been sold for sole leather. These and other considerations are sufficient to convince all thinking people that Home Manufacture is not only the pecuniary interest of the whole state, but an absolute duty incumbent upon us as sensible, civilized people. We lay down the following principles of political economy, approved not only by general reasoning and common sense; but by the enlightened experience of all the great manufacturing centers in Europe and America.

1. Other things being equal, it is always best to manufacture in the district of consumption. It is financially, as well as socially, best for all goods to be made in the midst of the people who are to use them. Thereby is saved to the consumer all cost of transportation, all per cent for insurance, all destruction of property by losses in shipping, all profits to the different parties who may own the material or goods, and the interest on the value that must accrue between the time of producing the material and the consumption of the goods. All these items put together amount in the average to one half the cost of the manufactured article. In all cases where the article could just as well be manufactured in the district of consumption, this is an inexcusable, ruinous waist to the consumer. Statistics and observation prove conclusively, that a people who use manufactured goods largely, and employ themselves exclusively in producing raw material will be poor in spite of every advantage of soil, climate and material facilities of transportation.

2. The second principle I state is, that producers of raw materials never can compete with those who manufacture, in wealth and high civilization. Every species of manufacture, requires labor more or less educated, and educated labor always has and forever will pay better than that which is uneducated. The trade or profession forces its occupants to an extent of information, range of thought, and general activity of mind and body, that not only earn large amounts of money directly, but that indirectly multiply their good results in all directions by invigorating the whole community. There are stimuline and quickening powers in the mechanic arts that are necessary to the full development and healthy tone of all people. If we would ever rise up to our full stature, feel our capabilities and give scope to our genius, we must manufacture as well as produce.

3. I state as a third principle that every State ought to afford facilities for a full, wide development of all its talent; not simply the talent that shines at the Bar, in Pulpit or in Legislative Halls, but all that immense mental force that adorns and enriches the homes of the land, makes desert places bloom with all that is useful, and adds to the solid enjoyment of the whole population by a decrease of muscular toil and an increase of every material and mental resource. This development of talent can only be effected by extending the lines of industry as widely as the wants of the whole community. Every State is not only a complete self governing political existence, but ought to be a perpetual market of all indigenous productions, and self-producing in all articles upon which mind and acquired skill confer their principal value. Without these conditions no state can prosper. Not only will a heavy balance of trade absorb the few resources she cultivates; but a large amount of her best talent and enterprise will either be directed to unprofitable pursuits, or left wholly without employment. Every State produces men naturally adapted to all necessary pursuits, and he who works contrary to his genius can never greatly benefit either himself or the public.

If these principles are true, shoe manufacture is an imperative necessity to North Carolina. The business is of immense financial magnitude, the article a prime necessity, and the drain upon our resources has no balancing compensation. That we can successfully manufacture shoes has been fully proved by experiment. In the year 1857, Messrs. C. M. & G. Lines commenced manufacturing shoes in Thomasville, for the wholesale trade. Soon after that time Messrs. Shelly & Son commenced making dice cloth gaiters, and from that time the business has been steadily increasing. There are now, in Thomasville, four wholesale establishments, Messrs. C. M. & G. Lines; Shelley Bros. & Co., Jones Bros. and James A. Leach & Co. During the last year these houses made and sold about 55,000 pairs of shoes. Two of these houses commenced work in the last twelve months, they never have been able to meet the demand to the full extent. They can readily sell all they can make, and the demand is extending not only over this State but even to other Southern States. E. A. Vogler & Co., of Salem, are manufacturing largely both pegged and sewed work, and find ready sale for all they can furnish. These houses have succeeded not by artificial expedients and tricks of trade, but by fair, honest work, and a natural suitability of the work to the wants of the people. The shoe business in this State has had no combination of capital to foster its struggling infancy, and no Union of influential merchants to protect its growth, but has established itself against the most gigantic competition, and in the midst of all kinds of disadvantages. We had to make our people believe that a shoe could be made in North Carolina with a leather sole as well as in Lynn with a rag sole. North Carolina has every facility for tanning, oak bark in abundance produces a very large amount of hides, and might furnish leather for nearly all kinds of shoes. Of the best quality, and yet we can find very little home tanned leather proper for our work. The leather is badly tanned, dressed in a very imperfect manner, and never reduced to a uniform thickness. With such stock as this it is impossible for any factory to make good saleable work; the same side will never furnish two pair alike. And in addition to this difficulty there is so much waste in cutting up home tanned leather that no man can use it and compete with those who use the Northern finish. But for all this there is an easy and natural remedy.

So soon as our shoes are chiefly manufactured at home, our tanners will find a ready market for all they can produce; they will no longer do as they now do, which is to ship their rough tanned, undressed leather to northern houses, but finding ready sale for any amount of a good article, they will be able to procure machinery and good workmen, and finish up all the grades of leather required in the largest factories.—As affairs now are, the shoe factories are compelled to buy their stock north, not only to procure style and finish for their work, but to make a good serviceable shoe for their customers. It is vain for unskillful workmen and noisy demagogues to harp upon State pride or any other fancy sentiment; trade and manufacture will run in their natural channels, and any man who can produce the best article at the lowest price will sooner or later find sale for all his work. In producing shoes we have labored under all the difficulties natural to any business in a new locality, our stock had to be brought from a distance; our workmen had to learn their trade; our business was too small to admit a full and profitable division of labor. We had to overcome the idea, that any thing made in the north was better than home production, and had to contend against shoddy shoes that by aid of paste and blacking are sold by our merchants by thousands. We had to use the very best stock made in America. Work had to be done equal to any that ever came from the north. Then have to sell some styles of shoes at cost, and never more than ten cents could be made to the manufacturer on a pair. But against all this we have moved steadily on, and to-day a Thomasville shoe has a better reputation in North Carolina than any that ever came from Lynn or Boston. But as yet the business is in its infancy; our eyes have just been opened to see what we can do; the chains of commercial and manufacturing slavery have just been cut from our arms, and we begin to feel that we are men. With a proper amount of capital and good business talent success is as certain in shoe manufacture, as it is in any pursuit known among men. Suppose we had in our State large well organized manufactories, that could make one half even of all the shoes bought in North Carolina. Not only would a handsome per cent reward the owners, but life and wealth would flow out from it to the whole country. Nothing is to be dreaded from Northern capital and cunning; those piles of miserable cheats by courtesy called shoes would cease to come South altogether, and honest North Carolina shoes would warm and ornament the feet of one of the truest people that ever lived. With a cash capital we can go into the Northern markets and buy stock as cheap as any New England house can, and can certainly compete with any body in the original cost of material; not only that, but in a short time tanneries of the first order would spring up and furnish the leather at our own doors, leather that would be free from those defects now more or less abundant in very near all that goes into the general trade. This business in turn would stimulate stock raising and agriculture, and soon all over the State Durhams, Devons, Short Horn and Jersey's would be roaming over immense clover fields, furnishing milk, butter and cheese for all the people, and an unbounded supply of beef of the first quality. These things would afford employment and enterprise for all grades and classes of our people; beggars would no longer be seen upon the highways, shoeless, hatless orphans will not be found in the streets, and the widow will no longer shed useless tears over her hungry babes. There are key-stones in the business of life as well as in the arches of architecture, and one of these is the shoe business. It has done more for the real wealth and prosperity of Massachusetts than all the commerce that ever flowed into her harbors; and it would do more for North Carolina than all the trade and travel of her inland roads and Seabord cities. Large manufacturing would not only stimulate nearly all primary pursuits, but the very extent of the enterprise would justify a complete division of labor. There are in this business at least eighteen distinct operations or lines of work, and it is well-known that elegant as well as profitable execution, requires that no workman should do too kinds of work. The greatest skill can only be acquired by continually training mind and muscle on a distinct operation. And as the different operations require very different acquirements in ability and skill, operatives are selected that in experience and wages correspond to the work. A large amount can be done by very small boys. We have a large number of small boys in Thomasville that peg shoes so rapidly and perfectly that I would not like to here state the number each one could peg in a day, for fear some one might think I was mistaken. The only way of success is to have a perfect system of labor. Learn workmen to do a very large amount of work in a very short time. The business has shown that four times as much work can be done in a day by Southern men and boys, than was thought possible for them to do.—[But they never move, as most o' our Southern men do when they go to work.] A large shoe business would give employment to almost all ages and conditions. Would add immensely to the self supporting capacity of all, and thereby decrease the immence force of grim want that now urges thousands to all forms of sin and crime, give profitable employment to hundreds of our people. This influence would spread like a leaven of light and life through every lurking place of idleness and crime. Taxes would come gracefully and gradually down to a living per cent and contributions to the poor would no longer be a grievous burden instead of a christian pleasure. We claim for the shoe business of Thomasville, that by large sales even at a very small per cent we can make a living profit, and be able to compete with the general trade of the world, and at the same time furnish the very best article to the consumer. Take the question in all its aspects, and the shoe business is one of the most promising. But it is utterly useless for any man to commence operations with a small capital, he must have a sufficiency to organize a complete division of labor, and to accumulate full stocks for the heavy trade of spring and fall, he must have a sufficiency to enable him to go into the markets at the most favorable time either for purchase or sale. It is now in the power of our people, to build up her manufactories. Why then should not North Carolina make her own shoes? Why enrich other States with what she can do for herself equally as cheap and far more honest? May the time soon come when a North Carolina shoe will be famous in all markets, and when her manufacturing skill shall pay all her debts, and make all her people prosperous and happy.

NEW ADS.—See announcement of building lot for sale on Fayetteville street.

And A. D. Royster & Bro., has another supply of that fine Durham Smoking Tobacco, *and* cigars.

DID YOU SEE 'EM?—Those black ponies with those riders on them—how beautifully they *galloped* through Fayetteville street, yesterday afternoon? Those horses are good on a gallop.

A MODEL JUSTICE.—At a recent meeting of the Board of "Brogden" Township, Wayne County, 'fur de puppus of transe tin de bizness ob de County fur dat town ship" as they expressed it in the Record they passed two Road orders, and then adjourned, having performed a hard day's work.

One of the Board, being a J. P., was then called upon to "help set on a case," the case being the trial of two colored females for an alleged affray. After paying close attention to the "ebidence," which was conclusive as to the guilt of the parties, the wise Judge declared that, "bein as how he was onaquainted wid de proceduices in sich cases, he was onable to gub judgment," whereupon, a bystander suggested that the vote of the crowd be taken, to which his worship consented.

The justice then put the question—"It has been moved and seconded, dat dis case be dismissed, all ov you who is in favor ob dat motion will let it be known by saying, "Aye." The vote was unanimous in the affirmative, and the case dismissed, and the last our informant saw of the parties, they were going towards the doggery, "to git de money changed to pay de coss."

SUNDAY SCHOOL MASS MEETING.—On Sabbath afternoon, last, the Presbyterian and Methodist Sabbath Schools of the city, visited the Baptist Sabbath School at the Baptist Church, and a very pleasant hour was passed in singing, by all the schools, and short addresses by those connected with them.

The exercises were conducted by W. J. Palmer, Esq., Superintendent of the Baptist Sunday School.

The meeting was opened with prayer by Rev. H. T. Hudson, of the M. E. Church.

Short addresses were delivered by Rev. W. E. Pell, Messrs A. M McPheeters, S. L. Riddle, R. W. Best and Jno. R. Harrison.

Before, between and after these addresses all the schools joined in singing some of those beautiful Sunday School songs that always charm the ear and gladden the heart of those who hear them.

The exercises were closed with the benediction by Rev. J. K. Howell.

The next union will be held at the Presbyterian church. "Behold, how good and how pleasant."

"OLD VIRGINNY NEVER TIRE."—We learn from a reliable source that the State Fair in Richmond last week was a splendid success. During the four days there was a vast assemblage. On Tuesday some 8 or 10 thousand. On Wednesday 20,000. And Thursday at least 25,000. While on Friday the last day, there was a crowd of at least 10,000. The weather was all that could be desired all the time. The display of Horses, Cattle, Hogs, and Sheep was very fine. The best breeds of Virginia Horses were exhibited.

All other things usually exhibited on such occasions were fully represented. But the greatest exhibition of all, was the appearance and good conduct of the Virginians themselves, who were so orderly, so dignified, and so cheerful under all the recent disasters of a desolating war within her borders. It is said that such a magnificent array of fine looking Women and Men, has seldom been seen in the "Old Dominion."

FIRE.—An alarm of fire was given on yesterday (Monday) morning, about 9 o'clock, which was caused by the roof of the M. E. Church parochial school taking fire from the stove pipe. It was soon extinguished, without very material damage to the building. The Fire Companies were promptly on hand, but their services, fortunately, were not called into requisition.

People ought to be very careful in regard to the running of stove pipes through the wood work of buildings.

TURNED UP IN CHARLOTTE.—We see from the Charlotte papers that there was an exhibition of music and magic in that city on Thursday night last, for the benefit of the Charlotte Cornet Band. The band played the music, we presume, and a Mr. Hensley, "gin a treat," of magical illusions. The *Times* regrets there was but a small audience. Mr. Hensley, or *Hensley* ought to have had the magic drum, pistol and other "fixtures" that were on exhibition here on Saturday; they drew a considerable crowd, and Sheriff Lee realized fifty dollars by the exhibition; every thing "went off well."

Colds and Coughs.—Sudden changes of climate are sources of *Pulmonary and Bronchial affections*. Experience having proved that simple remedies act speedily when taken in the early stage of disease, take at once "*Brown's Bronchial Troches*," let the Cold, Cough, or Irritation of the Throat be ever so slight, as by this precaution a more serious attack may be warded off.

DURHAM, timber inspector at Wilmington, got caught stealing and the Governor has taken away his commission for it.

THAT DOWN.—ANOTHER CARPET-BAGGER CAUGHT.—Estes, the gay and festive *L. G.*, the man who had such mighty influence over our Governor as to promise his pardon to any one in advance who would shoot Joe Turner in the back, has got himself into difficulty in Wilmington, as we learn from the *Journal*. The Grand Jury of the U. S. District Court found two bills against him—one for embezzling, (a nickname for stealing) $15,000; the other, for making false returns, as collector, to the Commissioner of Internal Revenue, (Estes was Collector of customs at the port of Wilmington.)

The case was transmitted for trial to the U. S. Circuit Court, which meets in Raleigh, on the 29th inst., for which a copies was directed to be issued.

Mrs. L. G. Estes, J. C. Abbott, E. R. Brink and W. H. French are on his bond as Collector.

Poor Estes! He used to splurge about Raleigh is quite a different character from that in which he will appear on the 29th November. Beware of carpet baggers!

THE WEATHER.—We beg the pardon of that Local over the way, down the street, for meddling with his subject, the weather, but it is so cold we must speak of it. Sunday we had truant snow-flakes flying through the air, which seemed to impart a portion of their frigidity to, it so that Sol has not yet been able to dissipate it. We predict a hard winter and much suffering.

"When the old robin red-breast shall visit your door;
When the icicles hang at your door;
And your bowl smokes with something reviving and hot,
Then you ought to remember the poor."

THEATRE LAST NIGHT.—Owing to imperfection in the announcement, the audience at Tucker Hall, last evening, at the first representation of Ford's talented Theatrical Corps, though select, was not so large as the merits of the Company deserved. Full houses will doubtless greet them during the remainder of their stay.

The acting, last evening, was spirited and developed some first-rate talent. We have neither space nor time, this morning, for any particular mention. It may not be generally known that a gifted and beautiful North Carolina Lady, Miss Alexander, formerly of Lincoln county, who has adopted the stage as her profession and who has brought to her art the readiness of a highly cultivated mind, is with this Company. Her presence last night, was enthusiastically greeted, as it should have been, and her impersonations were natural and admirable. Ryan, as a comedian, is inimitable. The Company, generally, sustained themselves well.

An attractive programme is presented for this evening.

A meeting of colored people was held in the Court House last night, for the purpose, we understand, of appointing delegates to the National Labor Convention to be held in Washington City on the first Monday in December. We did not learn the result of the meeting, but we presume some popular speeches were made by the frequent applause that was given.

FIRE IN NEWBERN.—A house caught on fire in Newbern, on Saturday last, as we learn from the *Journal of Commerce*, but was extinguished by the fire companies, after burning the roof and upper story.

Monday Midnight Dispatches.

WASHINGTON.

WASHINGTON, Nov. 8.—In the Supreme Court in Woodruff et. al versus Parham, from the Supreme Court of Alabama, the opinion of the Court below was affirmed. The principle enunciated is, that the course of the Federal Constitution prescribing the States from laying imposts on imports and exports, applies only to foreign commerce, and does not exempt sales of goods and merchandise imported from other States of the Union from State taxation. Justice Nelson dissented, asserting that the contrary was maintained by Chief Justices, Taney, Marshall and Story.

Gov. Bullock has ordered a special train for invited guests. It will leave Lynchburg on Saturday evening 13th inst. Gen. Dupron, Prof. Henry, Asst. P. M. Gen. Earl, Senators Pomeroy, Cameron and other prominent gentlemen and officials, will certainly attend.

Revenue to-day, over half a million.

Brogden is appointed Collector of the Second North Carolina District.

[General, you must return thirty fool's-cap pages of thanks for the unexpected honor.—*Ed. Sentinel.*]

Paraguayan advices indicate that Lopez is still strongly posted and capable of prolonging the struggle indefinitely.

VIRGINIA.

RICHMOND, Nov. 8.—A telegram to the *Dispatch*, announces the arrest at Charlottesville, to-day, of John H. Salmon, charged with the murder of his aged mother and young brother, on Thursday morning last. They were found brained with a hatchet, and Salmon who went home that morning, drunk from a neighboring farm, asserts that he found them in that condition. The prisoner was cool and denied the murder, but made many contradictory statements.

Gov. Canby issued an order to-day, postponing all Railroad stockholders' meetings till the admission of the state.

ALABAMA.

MOBILE, Nov. 8.—The track laying of the Mobile and New Orleans Railroad, commenced here to-day, many citizens witnessed the ceremony. The first spike was driven by Col. Mann the proprietor of the *Register*, who made a pertinent address, in the course of which he said, he regarded it as not merely in the inauguration of 138 miles of Railroad from Mobile to New Orleans, but of a great Southern Pacific Road which this company headed by such men as Ames, Sprague and Gaarniser, would be.

ILLINOIS.

CHICAGO, Nov. 8.—The schooner Titan was wrecked to-day on Lake Michigan, and eight lives were lost.

MASSACHUSETTS.

BOSTON, Nov. 8.—The British schooner Frank, from San Domingo for Boston has arrived at Provincetown, with all hands sick; the mate and one seaman had died of the fever.

OHIO.

TO THE WORKING CLASS.—We are now prepared to furnish all classes with constant employment at home, the whole of the time or for the spare moments. Business new, light and profitable. Persons of either sex easily earn from 50c. to $5 per evening, and a proportional sum by devoting their whole time to the business. Boys and girls earn nearly as much as men. That all who see this notice may send their address, and test the business, we make this unparalleled offer: To such as are not well satisfied, we will send $1 to pay for the trouble of writing. Full particulars, a valuable sample which will do to commence work on, and a copy of *The People's Literary Companion*—one of the largest and best family newspapers published—all sent free by mail. DRY GOODS.

WIDE AWAKE HOUSE!

DOWN STAIRS FULL; UP STAIRS FULL; SHELVES FULL! PILED ON THE COUNTER; PILED ON BOXES AND ALL ABOUT THE HOUSE!

COME TO CREECH'S!!

DRESS GOODS! DRESS GOODS! In great variety; Styles new; Goods pretty, cheap enough to buy.

FRENCH MERINOES,

In which I recognize no competition, as they will be sold just as cheap as they were when Cotton was 10 cents per lb, and Money equivalent to gold.

ALWAYS COME TO CREECH'S to buy MERINO DRESSES for my money is as good as anybody's; I bought them as cheap as anybody, and I intend to sell as cheap as anybody. That's the way to talk it.

GOODS FOR MEN AND BOYS' WEAR,

Such as Kentucky Jeans, Tweeds, Satinets and Cassimeres. No better assortment or greater variety in the city. In fact, I have enough to keep the boys, the youths, the young men and the old gentlemen, all warm. Step in at Creech's and look at them before you buy.

HATS! HATS! HATS!

For Gent's, Boys and Children. Pull off your old summer hat; it's too late to wear it now; style is changed. In fact, a new hat looks best, anyhow. Call at Creech's corner and examine, before you buy a new Hat.

SHOES! SHOES!

One among the largest and best assortments in the City. Come pull off your old shoes, throw away those that are worn out, and put on a new pair. Keep your feet dry, and preserve your health. Always come to Creech's before you buy.

Ladies and Misses' Hats! Hats!

No use to talk. The style has changed. Spring and Summer styles are out of vogue; so go to CREECH'S. HE ALWAYS KEEPS THE NEW STYLES.

LADIES' BONNETS,

Some small enough; some large enough; some trimmed; some untrimmed. It won't do you any harm to call at Creech's before you buy.

CLOAKS AND SHAWLS.—A Fine Assortment.

Now don't you think you had just as well step over to CREECH'S, and look. Probably you will save time and money. In fact, that is just the very place to get the worth of your money; and permit me to tell the people, that when they visit the City, to COME TO CREECH'S for it is certain, who have come, acknowledge the truthfulness of my assertions.

I have more to say to you, but will tell you the balance at my place of business.

SCHOOL BOOKS.

UNIFORM SYSTEM OF

TEXT-BOOKS

FOR NORTH CAROLINA.

Office Publishers' Sup't of Introduction. RALEIGH, N. C. Sept. 21, 1869.

A DEPOSITORY has been established at Raleigh, in charge of M. L. Alfred Williams, for the following books, which were adopted Aug. 5th, 1869, by the State Board of North Carolina for uniform use in the Public Schools:

PARKER & WATSON'S NATIONAL PRIMER.
PARKER & WATSON'S NATIONAL SPELLERS.
PARKER & WATSON'S NATIONAL READERS.
DAVIES' ARITHMETICS.
MONTEITH & MCNALLY'S GEOGRAPHIES.
MONTEITH'S YOUTH'S HISTORY OF THE U. S.
EXEMPLIFICATION OF PENMANSHIP.

THE NEW DESCRIPTIVE GEOGRAPHY OF NORTH CAROLINA will be ready about the middle of October next. The maps, &c., are now being engraved as rapidly as possible. This work will be furnished with Monteith & McNally's Series, without extra charge.

THE BOOKS will be supplied at exceedingly low rates to the Public schools in the state.

Similar terms will be made accessible to private schools adopting the above named books uniformly.

PUPILS attending the Public Schools will, in accordance with the State contract, be furnished with new copies of Monteith & McNally's Geographies and Davies' Arithmetics in exchange for old copies of Cornell's Geographies and Quackenbos' Arithmetics, which they may possess.

Books will be supplied, carefully packed and shipped, by ALFRED WILLIAMS, Depositary, Raleigh, N. C.

Teachers and Educators generally are respectfully invited to correspond with C. W. LAMBETH, Agent for the Publishers and Sup't of Introduction.

From Dr. Wm. B. Harrell, Prin. High School Snow Hill, N C.:

SNOW HILL, N. C.

"I am much pleased with both the Spellers and all the Readers; and as to the series of Geographies by Monteith & McNally, I have long used no others when these could be obtained.

From Rev. Aldert Smedes, D. D., Rector of St Mary's School, Raleigh, N. C.

RALEIGH, N. C.

I have examined the Geographies—Monteith's [No. 4] and McNally's [No. 3] and find excellencies in both, which eminently entitle them to a wide circulation. It is my purpose to introduce Monteith's [No. 4] into my school. I give it the preference for the information which it gives on the subject of Physical Geography. The maps and questions in both works seem to me to be admirable. ALDERT SMEDES.

From J. W. Gulick, A. M., Prin. Male Academy, Goldsboro', N. C.:

GOLDSBORO', N. C.

I find your books are in use in many Schools in this section. The teachers speak in the highest terms of your Readers and Geographies, and of Peck's Ganot in particular. J. W. GULICK.

From Col. Wm. Bingham, Prin. Bingham School, N. C.

The introduction of so much valuable matter on the subjects of Physical Geography and Geology, and in a form so simple and intelligible, makes it (Monteith's Intermediate Geography) in my judgment, a charming school book.

"We shall introduce Davies' Bourdon, perhaps others of your books."

From Dr. Closs, Prin. Durham Academy, N. C.: DURHAM, N. C.

I design introducing the present session McNally's Geography and Davies' University Arithmetic; also Boyd's Elements of English Composition. M. CLOSS.

From M. L. Little, Esq., Prin. Pleasant Hill Seminary, Newton, N. C.

Will introduce the University Arithmetic next term. Have examined it with much satisfaction. An admirable work M. L. LITTLE, Prin. Pleasant Hill Seminary.

From Rev. S. Ivey, Prin Auburn Academy N C.: AUBURN N. C.

Monteith's Geographies are excellent works, and I shall introduce them into my school. STINCEON IVEY.

Prof. Wm. A. Obenchain, writing from Hillsboro' Military Academy, says:

The superior and durable style of binding of your works is a very great recommendation—one with which I have long been favorably impressed.

From J. E. Dugger, Esq., Prin. Male Academy, Warrenton, N. C.

WARRENTON N. C.

"Davies' Mathematics" was adopted by me in 1858, and, up to this time, I have examined no works superior to them as a whole.

I have examined, with a view of introduction, "McNally's Geography" [No. 3] and "Peck's Ganot's Natural Philosophy." I consider them most excellent works, and shall put them in my boys' hands, at the earliest period. The Philosophy is truly an enticing work and must meet with universal commendation. J. E. DUGGER.

From W. C. Kerr, State Geologist of N. C.

I regard Monteith's Physical and Intermediate Geography as one of the best books of its kind. It has several points of superiority over most primary Geographies; not the least of which, especially in the eyes of the juveniles, will be found in its attractive and very graphic illustrations. Another is the truly wonderful amount of substantial and really scientific information conveyed by these wood cuts, and the concise and lucid descriptions appended But the chief excellence consists in this, that Geography is here treated from the only true and rational standpoint, viz: of Geology and Physical Geography; so that the learner arrives, by a natural and easy process, at the true conception of the earth as an organized whole; the designed result of successive changes and modifications, under the control of physical laws, constituting a true growth from a chaotic germ through manifold stages of progress, all pointing forward to its destined end as the home of living beings, and finally of man.

From Rev. G. D. Bernheim, Principal of Mount Amoena Female Seminary, Mount Pleasant, N. C.

MT. PLEASANT, N. C.

I have introduced your National series of Readers with great satisfaction to myself and to our teachers. We find them to be excellent, just suited to our purpose.

With Davies' Mathematical Series we have been long familiar, and can find no good reason for changing them.

In the Primary Department we have Monteith's Geographies, and in the advanced classes we have introduced Peck's Ganot, with much acceptance. G. D. BERNHEIM.

From Prof. Jos. H. Fox, President Stantonsburg Seminaries High School, N. C.

WILSON, N. C.

I have carefully examined the claims of the different Series of School Books most prominent before the public at this time. I have tested the merits of many of them in the school and lecture room, and feel no hesitancy in pronouncing the "National Series of Readers and Spellers" the best with which I am acquainted. I shall henceforth use no others in my school, and I shall furthermore use my influence to secure their adoption into other Seminaries in this section.

I use Davies' Mathematical Series in my school. I consider his works incomparably superior in many particulars, even to Stoddard's Course, which is saying a great deal. In fact, I consider it the highest encomium in my power to bestow.

I use Monteith's Series in my school. They afford a gradual but thorough and systematic progression, from the simplest rudiments of science, up to a development sufficiently exhaustive for all ordinary educational purposes. Their very superior merit has led me to discard ——, which stands next best on the list.

McNally's, the fifth book of the course, is decidedly the chef d'œuvre of Geographies. No competent instructor can examine it for an hour without being struck with its extraordinary merit. J. H. FOY

From the Statesville, N. C. *American*, February 20th, 1868.

We would call the attention of Teachers in Western North Carolina to the valuable school publications of this firm, which are equal to any in the Union.

Messrs. Barnes & Co., of New York, are now having large editions of these Standard School Books for the Southern states. The series consists of the National Primer, or Word Builder; National Elementary Speller. The National First 2nd 3rd, 4th and 5th Readers. This firm will allow no competition in the price of books published by them; which are among the best in the States.

From the Raleigh *Daily Progress*, Feb 20, 1868.

NATIONAL SECOND READER.—We have never examined a volume of its class which we could commend more cordially to parents and teachers.

From the N. C. *Presbyterian*, March 7, 1868.

NATIONAL FIRST READER. We recommend it to all who desire a valuable book of instruction for beginners.

From the Wilmington, N. C. *Daily Herald*, 1868.

The National series has attained probably a higher reputation than any other complete series of School Books now in existence.

THE UTLEY

COTTON PRESS.

A NEW combination of power, whereby all friction is overcome. The simplicity, economy and durability of this PRESS, astonishes all who see it, and the more so that a power so simple should so long have been unappreciated. With this Press, two men can do all the packing or pressing of a 500 pound bale inside of eight minutes: and it can be readily taken down and transported, as it is simple and light. We can supply these Presses cheaper than any yet offered to the Planter. Will send circulars to any desiring, and we would advise all persons wanting presses to withhold buying until they examine this.

THE PRESSES are now being manufactured at the SASH AND BLIND FACTORY OF THOS H. BRIGGS. All are assured that as between this and any other there is no argument as to its merits over all others. With the irons, any ordinary workman can put them up. The patentee is here for a few days, and will take pleasure in explaining its merits.

The Company has been well tested throughout the State, as to its promptness in paying her losses, reliability, &c.

DIVIDENDS PAID AT THE END OF THE FIRST YEAR, AND ANNUALLY THEREAFTER.

Its ratio of expense to income is extremely low. This may be seen by reference to the Official Reports for 1868. For example:

EXPENSE ON THE $100 RECEIVED.

KNICKERBOCKER,	$16,54
EQUITABLE,	17,44
NORTH AMERICA,	21,16
BROOKLYN,	21,09
UNIVERSAL,	27,24
JOHN HANCOCK,	18,27
THE NATIONAL,	69,48
THE ÆTNA,	13,41

It has an IMPORTANT NEW FEATURE that has been copy-righted. According to this plan the rates are MUCH LOWER than in any other Company in the world.

Its ratio of Mortality is low. Its rates are very low. Its expenses are very low. Its dividends are large.

It insured more lives in the City of New York in 1868, than any other Company, save one. It insured more Policies in the United States than any other one. It insured more lives in Canada than any other Company, British or American.

See what the HIGHEST INSURANCE AUTHORITY in this country says. In the June number of the *Insurance Times*, of New York, the following opinion was expressed:

"If there is any great benefit in mutual association, any great advantage to be derived from scientific organization and a chartered source, tending to mitigate the sufferings, lessen the privations, and add to the peace, security, and happiness of humanity, we are prepared to show that these blessings flow, in all their fullness and purity, from this excellent, powerful, and flourishing Company, the ÆTNA LIFE, of Hartford."

"No institution has brought more prompt, full, and grateful relief to the hearths of the bereaved and desolate, and none has been more uniformly distinguished for the enterprise, wisdom, and equitable liberality with which it has fulfilled the purposes of its formation."

"Its success has been almost unbounded and beyond all precedent. Eight years ago in 1861, it issued only 500 policies, received an income of seventy-eight thousand dollars, and possessed net assets amounting up to something over two hundred and eighty-one thousand dollars; but last year, 1868, it granted 13,322 new policies, more than any other Company except the Mutual Life; received an income exceeding six million dollars, and had amassed solid, securely and profitably invested nett assets amounting to over Ten Million Three Hundred and Fifty Thousand Dollars. And this wonderful ratio of growth has been sustained in 1869."
